FEBRUARY 28 IS RARE DISEASE DAY

Rare Disease Day is a global awareness day that is observed annually on the last full day of February and it is dedicated to raising awareness about the millions of people affected by rare diseases. The Rare Disease Day is a reminder that rare diseases are becoming less rare; this disease that affects millions of people across the globe and it is time to shine a light on this issue. It is an opportunity to learn about the latest research, to connect with others who are affected, and to advocate for policies that will improve the lives of people with rare diseases.

I SUPPORT RARE DISEASE DAY

Make your voice heard and show your support for Rare Disease Day by sharing images or messages on social media, writing a blog post, or organizing an event in your community. Join the worldwide movement to raise awareness about the impact of rare diseases on individuals and families.

Lunch & Learn March 9th

Lunch & Learn March 9th

Best Practices in Genetic Counseling

Join us for our March Lunch & Learn event where we will explore the best practices in genetic counseling and how they can be applied in clinical settings. This seminar will provide valuable insights into the latest developments in genetic counseling and how they can be integrated into your practice.

Please register in advance to secure your spot.

WEBCASTS-KICKSTARTER CAMPAIGN NOW!

If you are interested in supporting the Rare Disease Foundation's mission, please consider making a donation to our Kickstarter campaign. This campaign aims to raise funds for the development of innovative technology that can help people with rare diseases.
