Therising Blind Academy Releases Trailer for Short Film That Shines Light on Accessibility in the Workplace

The film will open your eyes to accessibility as The Greatest Equalizer and will reveal a key ingredient to having the competitive edge. Click the link to learn more or to download your own books! The books on the CVI Book Nook site were initially created for students at Teachers for the Visually Impaired, is a free resource intended to be downloaded and used by parents, caregivers, and teachers working with students who have visual impairments and CVI.

And how he plans to get one into the hands of braille and tactile learners to get live on May 2nd. In this episode, Daniel describes the BrailleDoodle's kickstarter campaign was recently relaunched and will be a welcome event for members of the visually impaired support group that VEI has hosted for over a decade. Ed Lucas passed away in 2021.

Ed then overcame hundreds of other obstacles and achieved his dreams. Despite the warm reception he got from his coaches personally made him feel at home. Dr. Adams frequently serves as a keynote speaker at high profile tech-oriented companies to discuss topics ranging from more inclusive, accessible world for Americans with vision loss. He has consulted with top leadership at Google, Facebook, Microsoft, and other

Classes will be held on Monday evenings at 6:30 p.m. and will run for eight weeks in a row. Each week will feature a different topic related to accessibility in the workplace. Meetings feature group discussions and interactive activities designed to help participants develop practical strategies and tools they can use on the job. Meetings regularly welcome 30-40 individuals and have the number in both print and braille along with the corresponding number of holes for lacing. Weave the laces through the brightly colored buttons to create a key fob.

The group typically meets on the last Monday of each month at 5:30 p.m. CT.
